## A New Way of Looking at Attendance

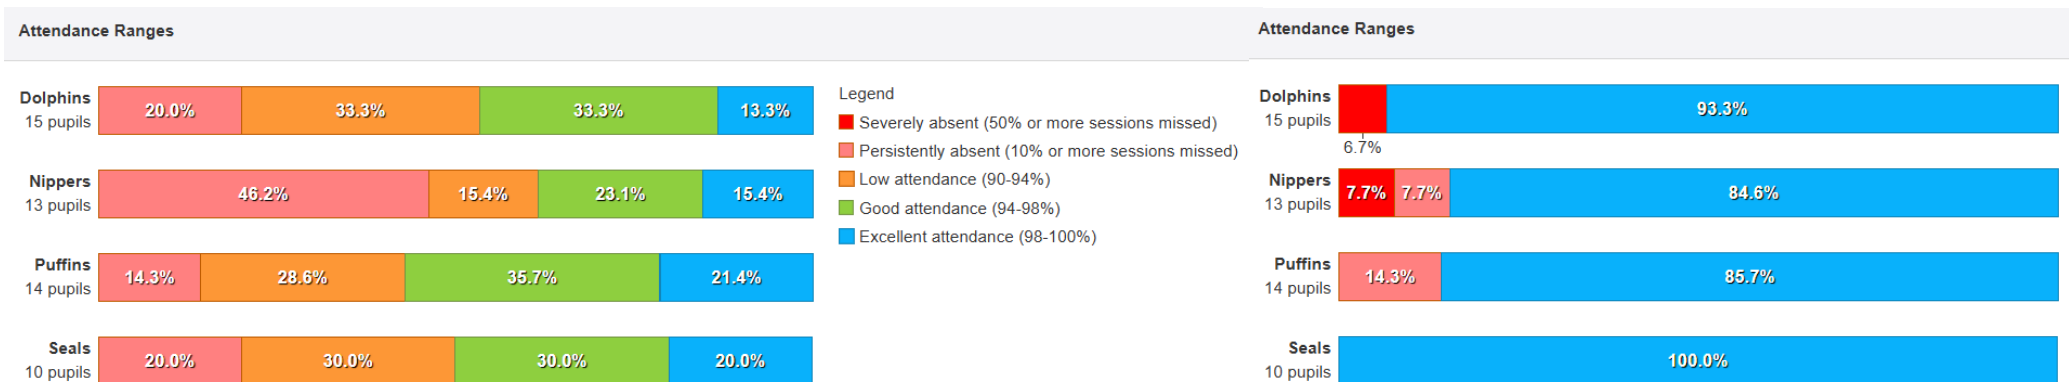

At Port Isaac Academy, we're excited to share a fresh perspective on attendance! Below, you'll find **infographics for each class**, showcasing attendance for the **whole academic year so far** and **this past week (Friday 31st January – Thursday 6th February)**.

We are thrilled to celebrate the successes of so many of our pupils, especially those who have reached the **blue zone** with **excellent attendance of 98–100%**. Your commitment to ensuring your children attend school every day is making a huge difference—thank you for helping to prevent lost learning.

## Why does attendance matter?

Every day counts! Regular attendance ensures that children don't miss out on valuable learning opportunities, building resilience and skills for their future success. Let's continue working together to keep attendance strong and celebrate the achievements of all our pupils.

### Year to Date

### Week to View 31st Jan—6th Feb

Thank you for your ongoing support,

**Emma Williams**

## **Number Day at Port Isaac Academy Monday 10th February – Dress Up for Digits**

We are excited to take part in an annual Number Day on Monday 10<sup>th</sup> February. Number Day is a great way to make maths fun and bring about a positive 'can-do' attitude towards it.

Pupils at Port Isaac, from Nursery to Year 6, will be taking part in a Maths-themed day; including problem solving challenges, TTRS competitions and maths story books.

We will also be taking part in Dress up for Digits. All pupils are asked to wear an item of clothing with a number on it (football shirt, cap, netball shirt or even a onesie!). Or get even more creative by dressing in a maths or numbers theme – you can get lots of ideas online!

Parents/carers are invited to a maths meeting at 2.50pm to find out how we teach maths, how to support at home and how we need to work in a partnership to help make our children marvellous mathematicians.
